The ElderPride Program

ElderPride offers education, resources, and referrals for LGBTQ Elders age 50+ and those aging with HIV. This population is more likely to live alone, and many are concerned about being able to access care as they age. Your support of this event empowers the ElderPride program to provide the following to LGBTQ Elders:

- Linkage to crucial healthcare services
- Connection to financial & legal support
- Support groups tailored to the specific needs of the community
- Monthly educational Community Connection luncheons
- Renowned training and education programming that equips health and human service organizations to meet the unique needs of this population

The Event

Founded in Baltimore and now celebrated coast to coast, **National Honor Our LGBT Elders Day** was created to foster awareness and show appreciation for the lifetime of contributions made by LGBTQ Elders.

Every one of our Elders has lived amidst the fires of change, through triumphs and struggles. Our Elders hold our history.

Each year at our Elders Day event, we gather to hear an inspiring group of LGBTQ community storytellers share the importance of a beloved Elder who has been essential to their journey. [Please enjoy this video of highlights from our 2025 event.](#)
